Dear Parents,

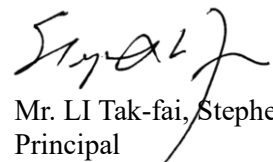

Small Unmanned Aircraft (Drones) are rapidly gaining popularity as technology advances, and operating them has become an enjoyable pastime for many. Our school is thrilled to announce a partnership with the Big Education Platform to launch a 10-week in-school program. This program will combine theoretical knowledge with practical skills, providing valuable hands-on experience that can be applied in various fields such as filmmaking, agriculture, and surveying. Students will not only enhance their understanding of drone technology but also prepare themselves for future career opportunities.

We would like to invite your child to participate in the program.
